# Half Orange

## Difficulty

*Hello little pixie!  
Here is the pattern that will teach you how to do your own half orange amigurumi. This is a graphic pattern, so you only need to follow the steps using the symbols given in the first page.*

You can follow the instructions in Spanish in our Youtube Chanel: Duende de los Hilos!  
[youtube.com/c/duendedeloshilos](https://youtube.com/c/duendedeloshilos)

You can find how to do this pattern in Spanish in our Youtube Chanel with all tips needed to make this amigurumi such as embroidering mouth, cheeks, adding eyes, making a perfect circle, sewing the pieces...

Crochet the face and body of your amigurumi following the pattern. I recommend you to use the perfect circle method so your circle's edges are perfectly rounded. You can use the same method to make the body but that's optional.

You can make the face's details before sewing it

to the body. Use slip stitch for the orange's segments. You can see how it's done in Spanish in one of our videos. I normally use safety eyes meant for children's safety but feel free to use any other eyes you like.

Fill the orange without tighten the stuffing too much or getting it too compacted. Once you have finished a piece leave a long thread of yarn. Use that thread to sew pieces instead of using another thread that wouldn't match the color, that way you wouldn't even notice it!
