Difficulty

*Hello little pixie!
Here is the pattern that will teach
you how to do your own Totoro
amigurumi. This is a graphic
pattern, so you only need to
follow the steps using the
symbols given in the first page.*

Fill the body compacting the stuffing and shaping it like an egg. You can fill the arms and legs without compacting the stuffing too much. Ears don't need stuffing, shape them with your hands and squash them a bit before sewing them to the body.

I normally use safety eyes meant for children's safety but you can use any eyes you normally use. Make a circle in white felt bigger than the eye and pierce the felt so that you can introduce the eye on it, you can use glue to make sure the eyes won't fall from the

felt. Add the eyes before finishing the body on the line made of frontloops stitches. They are more or less 12 stitches separated from one another.

Embroider some lines on the belly piece as shown in the picture.

Once you have finished a piece leave a long thread of yarn. Use that thread to sew pieces instead of using another that wouldn't match the color, that way it would look better!
